DICTIONNAIRE LEXICAL

Le répertoire officiel des mots ALKAMO

+ de 70 000 mots
répartis en 105 thèmes (5
maquettes) — liste appelée à
être enrichie

Classés par ordre alphabétique de thème

Préface

« Là où les murs enferment, naît le jeu du mot qu'il faut »

Le principe d'ALKAMO repose sur le champ lexical : pour chaque thème du plateau, les joueurs doivent former un mot appartenant au réseau de sens qui l'entoure — synonymes, mots de même famille, même domaine ou même notion.

Ce dictionnaire rassemble, thème par thème et par ordre alphabétique, l'ensemble des mots actuellement reconnus par le jeu pour chacun des champs lexicaux d'ALKAMO.

Cette liste n'est pas exhaustive. Elle est appelée à être régulièrement enrichie, corrigée et complétée au fil des parties et des retours des joueurs.

ALKAMO compte 5 maquettes (4 maquettes de 20 thèmes, plus la maquette Expert de 25 thèmes), soit 105 thèmes au total. Certains thèmes reviennent sur plusieurs maquettes ; chaque occurrence possède sa propre liste de mots et est présentée séparément ci-après, avec l'indication de sa maquette d'origine.

- Cagnotte T : la réserve commune des plaques thèmes
- Super Mot : mot formé avec les 10 lettres du chevalet (+20 pts)
- Défi : contestation d'un mot joué par un adversaire
